

Dear Sir or Madam,

If you still are searching for a Mobile Developer with a proven ability to develop high-performance applications and technical innovations, please consider my enclosed resume.

I've just arrive at Sydney as temporary migrant this month (I've temporary skilled worker visa, subclass 476), I have expertise and experience in Qt(C++) and iOS and am interested in exploring positions where I can add value to a company in IT industry. I just wanted to say that I'm available for mobile application developer contract work in the Sydney and Melbourne area in person.

My experience developing user-friendly solutions on time and on budget would enable me to step into an iOS developer role at your company and hit the ground running. I am very excited to discuss my qualifications, and the opportunity to join your team/staff, and you may reach me at (+61) 435023122 and armin.ahmadi@gmail.com on Gmail. Thank you for your time and consideration. I look forward to speaking with you.

Yours Sincerely,

Armin Ahmadi
